

Key

- ① Brickwork
- ② Cavity wall insulation (full fill shown)
- ③ Concrete blockwork
- ④ 12.5mm plasterboard on 15mm thick plaster dabs
- ⑤ Flexible seal between skirting board and floor finish
- ⑥ Air and vapour control layer (AVCL)
- ⑦ T&G Chipboard floor finish
- ⑧ Polyfoam Floorboard
- ⑨ Damp proof membrane (DPM)
- ⑩ Concrete beam
- ⑪ Levelling screed (where required)
- ⑫ Concrete infill block
- ⑬ Damp proof course (DPC) must be a minimum of 150mm above the ground level
- ⑭ Concrete infill
- ⑮ Earth
- ⑯ 100mm medium density block
- ⑰ Concrete foundation
- ⑱ Minimum 150mm overlap between wall and floor insulation to minimise thermal bridging
